

ATTACHMENT TWO

Socioeconomic Information Subregional Meeting Tentative Agenda

As MAG staff prepares to develop a June 2002 set of socioeconomic projections, we are holding five meetings in different parts of the region. The objective of the meetings is to inform member agency staff of how we develop socioeconomic information and how that information can directly benefit your work. The major questions that will be addressed are as follows:

1. What is the Maricopa Association of Governments (MAG)?
2. What socioeconomic information (base data, estimates and projections) do we provide?
3. How can we help you through the socioeconomic information we develop?
4. How does MAG develop the socioeconomic information?
5. What can you do to help MAG to enhance the accuracy of our estimates and projections?

The formal presentation will take about 30 minutes with an open ended question and answer period to follow. If you have any questions about the details of the meeting, please contact Harry Wolfe or Anubhav Bagley at (602) 254-6300; or e-mail us at hwolfe@mag.maricopa.gov or abagley@mag.maricopa.gov
